Vedubox–an innovative communication, conference, and education platform

Vedubox is a video communication system that provides e-learning and online meetings for the business world. It includes modular and integrated features for online training and video communication needs of the modern business world.

ARE YOU READY FOR A DIGITAL TRANSFORMATION?

Bring your trainings to the internet with this new cloud-based learning management system!

WHY VEDUBOX?

NO TIME AND SPACE RESTRICTIONS
Employees can access important information or training materials at any time and from anywhere.

ACCESS TO INFORMATION FROM SINGLE PLATFORM
Employees can easily access all training materials on a single platform just at the time when they need it.

LOWER TRAINING COSTS
In a digitalized training environment, the cost of training is greatly reduced, as physical spaces are not needed.

MONITORING AND MANAGEMENT
Corporations can identify areas that need improvement while monitoring the development of employees through specialized software and reports.

DIFFERENT LEARNING STYLES
The system supports different learning styles with visual and audio content and reinforces the learning experience.

QUICK AND EASY CONTENT UPDATE
With Vedubox's user-friendly interface, instructors can update course content very easily and quickly.

CLOUD BASED SYSTEM
100% ready without installation.

LIVE TRAINING AND ONLINE MEETING
- Vedubox Video Conferencing and Webinar modules make it possible to communicate in a digital environment without space and time restriction.
- Make it easier to work with professionals who are at a long distance, even in different time zones.
- Provide live presentations, screen sharing, and working on the same document as well as video calls.
- Help you save money and time by eliminating travel needs for business meetings. Supports time management.
- Offer features to record and re-watch meetings and trainings.

FEATURES OF VEDUBOX

CUSTOMIZABLE DESIGN

By using your company's logo and domain name, you can immediately set up your corporate academy and create your own communication and e-learning platform.

CREATING TRAINING

Unlimited number of training can be created with Vedubox. You can also create topics by categorizing and sorting the materials in the training as you want.

ASSIGNING TRAINER AND USER

Your instructors can easily and quickly upload training content in different formats to Vedubox and share it with your employees. They can update training, edit and delete employee records.

TEST AND EXAM

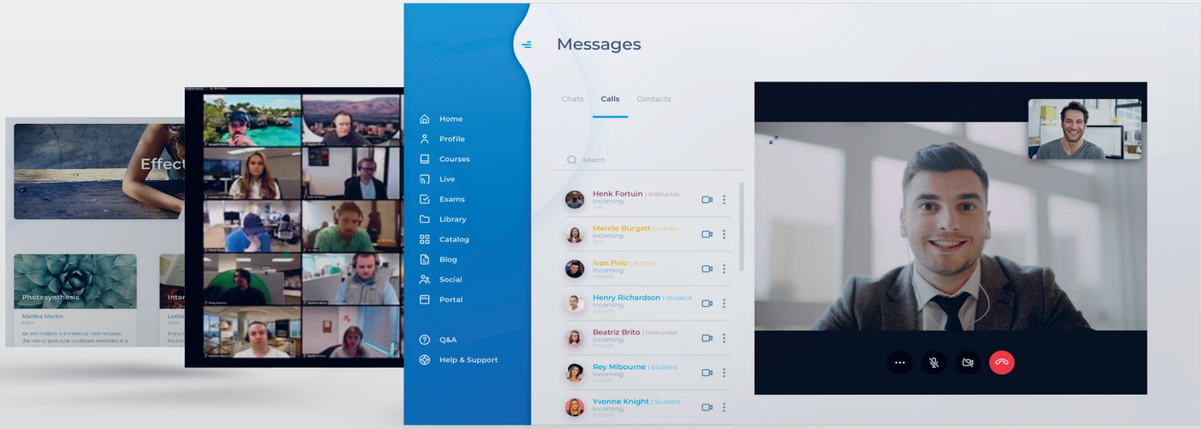
You can enrich your training with tests and exams in different formats, and you can reach reports and analyzes through the system.

VIDEO CONFERENCING

Use the video conference feature to make video calls, conduct meetings, and create workshops with your colleagues.

VIRTUAL CLASS AND WEBINAR

By creating a virtual classroom, you can conduct interactive live training, share your screen, and answer questions. You can organize a live seminar with the webinar feature.



CERTIFICATIONS

Automatically create accomplishment and attendance certificates for the users according to your success criteria.

REPORTS AND ANALYSIS

View your training and communication reports in various ways and analyze user data.

GAMIFICATION

Make corporate trainings enjoyable, increase participants' motivation, and ensure sustainability of learning programs by giving points for tests and tasks.

API, WEB SERVICE, SSO, AND INTEGRATION

Use API and Web Service to integrate Vedubox into any system and exchange data among systems. Provide single-sign-on (SSO) with your existing Intranet, in-house social networking, and HR software.

USAGE AREAS

IN-COMPANY TRAININGS

In companies, you may need to train employees on different subjects from time to time. You can prepare employee training easily and practically with Vedubox.

FRANCHISE TRAININGS

With the Vedubox system, you can quickly and effectively provide training for how your brand works and how to make sales, etc. to people who want to open your franchise branch.

SALES AND MARKETING

Companies provide significant advantages such as saving time and cost, better management, continuity, motivation by providing online trainings and meetings/seminars to their dealers, suppliers, customers and sales marketing personnel of their products and services.

CUSTOMER TRAININGS

Have you developed a new product? Do you want to quickly teach the product to your customers and sell it as soon as possible? You can prepare customer training quickly and effectively using Vedubox.

HOSPITALITY INDUSTRY

An easy-to-use e-learning platform helps hotel owners and managers train and evaluate their employees. So they can provide the best service possible. Also, an LMS for hotels makes the training process economical and practical as the institutions create the content once and use it again and again for each newcomer. When a new chapter is required in training, it is easy to update the content. It is a win-win strategy for hotels and employees to use LMS for training employees. What is more: It increases customer happiness.

HEALTHCARE SERVICES

The needs in the healthcare sector rises in parallel with the increase in the human population and the life span. The needs are not only about equipment, but also for qualified personnel. With the Vedubox system, you can provide fast and effective training to your healthcare professionals.
